

CO-DESIGN SESSION

WOMEN'S SAFETY IN URBAN CITIES

OBJECTIVES

Get a better understanding of using **technology** to help **women feel safer** traveling home or getting around the city

3 PARTS (40-50 MINS)

- 1. Exploring current solutions (5mins)**
- 2. Journey Mapping (20-30mins)**
- 3. Brainstorming (15 mins)**

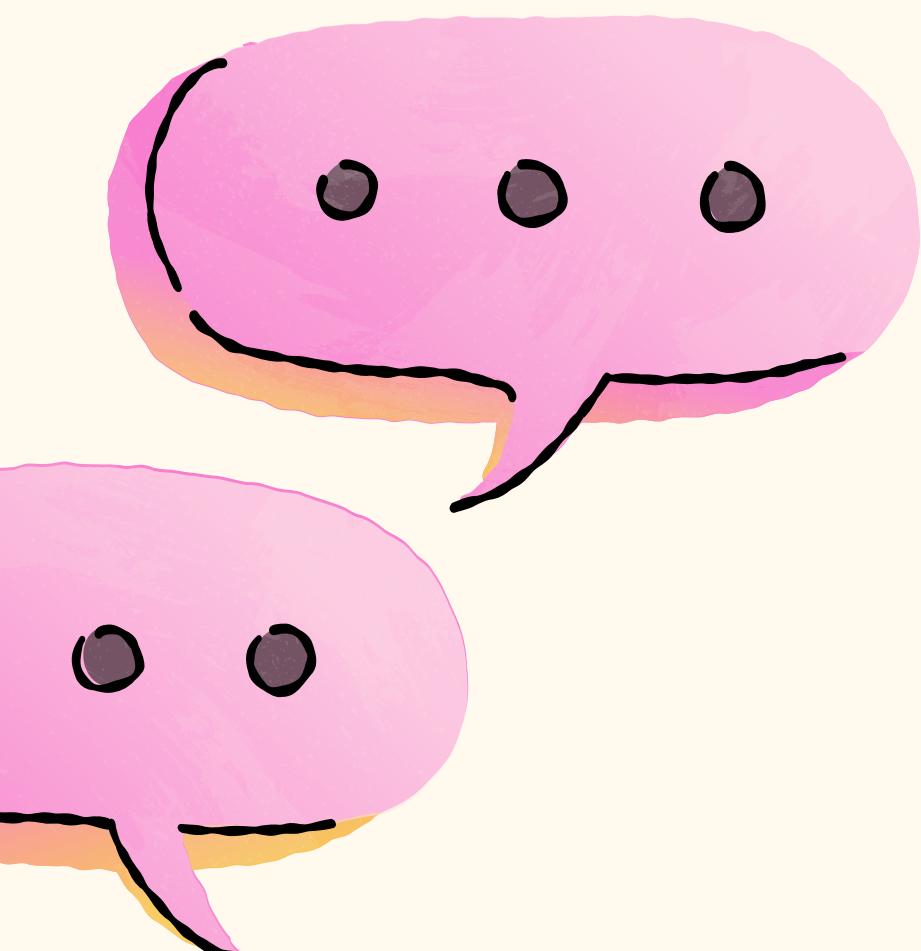

FIRST! CONSENT FORM!

SESSION 1

EXPLORING CURRENT SOLUTIONS

Do you currently use any tools or strategies to
feel safer when traveling around the city **alone**?

SESSION 2

JOURNEY MAPPING

Please imagine yourself in a scenario that you would need to **travel home alone**.

As we go through each part, please **describe** anything you would **do, feel or think** about.

A photograph of a cozy interior space. On the left, a desk is visible with a laptop, a mug, and some papers. In the center, there are two grey upholstered chairs. To the right, there are wooden shelves filled with books. A vintage-style radio sits on one of the shelves. The room is lit by several pendant lights hanging from the ceiling.

Leaving the place

On the way to the tube station

On the tube

Passing a dark park

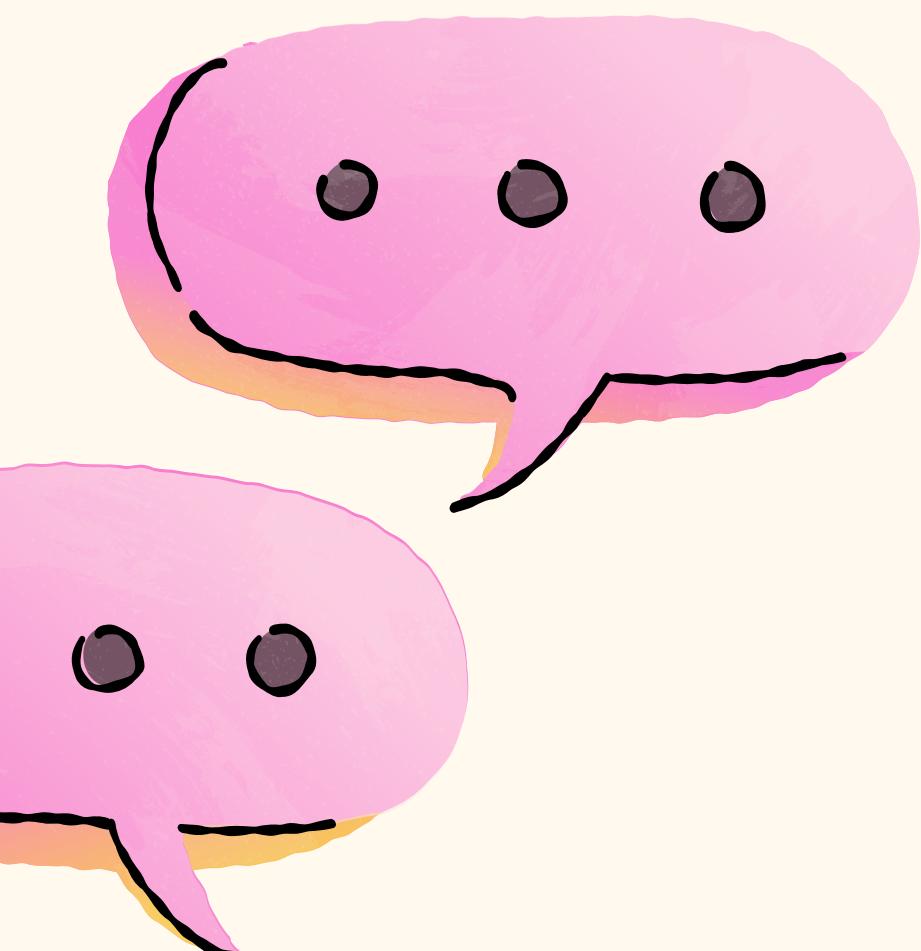

Arrive home

If you could warn others...

Reflecting on the entire journey

SESSION 3

BRAINSTORMING

Imagine having a **digital tool** specifically designed for safety and comfort while traveling.

What **features or functions** would you want it to have that you would use?

When you are likely to use it?

Any **last thoughts** you
want to tell us?
